## PROGRAM OVERVIEW

Refrigerators are one of the largest users of electricity in the home. To promote energy conservation, Heber Light and Power (HLP) is offering the Refrigerator Recycling Program. If you wish to get rid of your inefficient refrigerator, you can have your old, *still-functioning*, refrigerator picked up and recycled at no charge. In addition, you may be eligible to receive a \$50 rebate on the purchase of a new Energy Star refrigerator (separate application required).

Refrigerators will be picked up by Heber Park City Appliance. The refrigerator will be properly recycled.

## Terms, Conditions, And Eligibility

1. This program is for residential customers only
2. Old refrigerator must be at least 10 cubic feet capacity (no mini fridges)
3. Must be a current, active customer in good standing (provide account number)
4. Must completely fill out this application.
5. The refrigerator must be in an area for easy pickup, such as the garage or front porch. The refrigerator will not be removed from the home, through any doorways (other than a garage door), or down more than 2 steps.
6. At time of pick-up, old refrigerator must be where it can be plugged in as to verify that it is still operational
7. This is a one-time incentive per customer (regardless of location).
8. Allow up to three (3) weeks for processing and pick-up scheduling
9. Program available while funds last and is subject to the standard terms and conditions of the HL&P Clear Peaks Residential Energy Efficiency Rebate Program (available at [heberpower.com](http://heberpower.com))
