

Ceiling Fans

Residential Energy Efficiency Rebate Program

STANDARD TERMS AND CONDITIONS

Heber Light & Power

31 South 100 West ▪ Heber City, UT 84032 ▪ 435.654.1581 ▪ www.heberpower.com

Ceiling fans are an efficient way to maintain a comfortable temperature, when either heating or cooling. Most ceiling fans can rotate clockwise or counterclockwise. In the summer have the fan rotate in the direction that pushes the air down. Feeling the movement of the air makes it feel cooler in the room. In the winter have the fan rotate in the direction to pull the air up. This helps maintain a more consistent temperature by circulating the air.

Get a cash back rebate and save on your heating and cooling costs.

Available Rebates

Equipment Type	Rebate Amount
Ceiling fan	\$20
